*\* Please send your current company logo to [chris@coga.org](mailto:chris@coga.org). We ask that the logo file be in a vector format (eps file). The advantage of vector format is that they can be enlarged or reduced to any size and they will still look good. Vector format is created in Illustrator (or similar programs). The one requirement is that all logos must convert all text to outlines, so that fonts are not needed when using the file.*
